# From the President's Desk

Sabarmati Samruddhi Seva Sangh, the development arm of the Archdiocese of Gandhinagar, having received the mandate to ensure life in its fullness and inspired by the compassionate love of Jesus Christ, envisages a healthy society where people, especially the poor and marginalized, attain and maintain holistic well-being and live a dignified life in harmony with the creator, their own selves and with one another and the environment.

In the year 2016-17, SSSS has taken interest and tried to address several problems among the people who were most in need. Promotion of health care facilities, improving MMR, IMR & RCH status of women & child health, community based resource management, sustainable development were key issues in establishing self-dependent communities. Conservation of water, self-help groups, community health projects have paved a way to registration of Cooperative Societies. Moreover, Child helpline 1098 program in promoting and protecting child rights has given momentum to support and care for the children.

May our Almighty God bless the efforts of the Director Fr. Salvatore, Staff members and the entire team of collaborators of SSSS. All the volunteers, stakeholders and well wishers along with SSSS strive towards common good of human development.

With prayerful wishes, I remain.

# From the Director's Desk

Spending 2% of its income on Corporate Social Responsibility (CSR) activities when a company has its net profit 5 crores INR and above is a mandate passed by both Houses of the Parliament and has received the assent of the President of India on 29<sup>th</sup> August 2013. To facilitate optimum utilization of these welfare activities, Gujarat State Government has imbibed this mandate into a CSR hub, under Gujarat CSR Authority. As an institute/NGO/Community Based Organization to achieve this corporate funding, our competency and eligibility is challenged. There is no any short cut to channelize these funds. But we can get there depending on our systematic and dynamic approach.

The Non Governmental Organizations (NGOs) may grapple within to be professional in gaining CSR funds when in reality foreign funding are gradually dwindling away. The spirit of one human family and the mission of enabling everyone to experience the fullness of life itself is sufficient to direct our social apostolate in fulfilling the desired gap for integral human development.

SSSS, during the year 2016-17 has been closely associated with Nutrition Improvement through Community Empowerment ( NICE), Women's Co-operatives and children helpline "Childline 1098". Risk factors of malnutrition have been reduced, nutrition of children 0-6 years of age have been improved, pregnant and lactating mothers have experienced the joy of rearing & caring children. Women from SHGs have grown to a networking "mandals" to find space in the growing market of small scale industries and seasonal business careers. Promotion and protection of child rights in the district of Gandhinagar has provided us visibility and credibility to our faith based organization – pro- poor and joyful service to all.

SSSS indeed is able to make a difference in the social development sector by continuously reaching out its services to all. This is ably realized because of the support received from generous donors - Conferenza Episcopale Italiana, Manos Unidas, Childline Foundation and well wishers, staff, operating partners, corporate funding bodies, VHWS, VHCs, beneficiaries and all stakeholders.

SSSS is grateful to its shepherd, Archbishop Thomas Macwan for his earnest guidance and timely support. We walk into the future with ardour participation, broader partnership and collective proficiency. Together we rise to achieve a common good with love and service.

Thank you all.

# Nutrition Improvement through Community Empowerment (NICE)

Sabarmati Samruddhi Seva Sangh (SSSS), Gandhinagar is actively involved in developmental activities like health, education, watershed, community drought management, and natural resource management, formation of Self Help Groups, Childline 1098 and empowerment of women through Co-operatives. As part of our health activities, a project to address malnutrition issues of communities of backward areas of

Aravali district has just started. SSSS envisage identifying malnourished children from 0 to 6 yrs along with their mothers & improving *their nutritional status* by accessing Government health services. We hope that these communities become aware of health issues specially the women and manage their health problems on their own. The project will be implemented in 39 villages of Aravali district through four operating partners. There will be four groups namely anaemic child & women, young adolescent girls, mothers of 0 -6 years children and Village Health Community (VHC). 13 village health workers (VHWs) will be selected and trained on nutritional health. They will empower the communities to improve malnutrition data in their respective areas. They will ensure ways & means to get health entitlements from the government to the communities. Each village will also have a VHC who will facilitate and link with the Government Local Body called Panchayat and local health units in matters of health related activities so that communities receive their health services appropriately. We believe to achieve:

1. *40% increased from the present ratio in the consumption of nutritious food among women and children in 39 villages of Aravali by the end of three years.*
2. *45% of newly born babies are born healthy (>2500 gms) in the 39 villages of Aravali by end of three years.*
3. *80% Male and Female in 39 villages are sensitized on importance of nutrition by the end of 3 years.*
4. *Thirteen Village Health Workers are fully trained on health issues.*

Various health awareness trainings are planned for the communities; various topics on health will be dealt with in the training of VHWs; training on leadership and counseling will be given to the VHWs; several health camps are planned for the communities with the help of the Govt. Health Units; couple of exposure visits are also planned for the VHWs and VHCs, celebration of World Health day, Anaemia day, Nutrition day and some competitions such as healthy baby and healthy diet. The project is for a period of three years. The VHC members will take an important role in the sustainability of the project after the project comes to an end. They will continue to play their role in linking with the Panchayat and the Govt. Health Units for various Government health activities and the schemes by which the communities can benefit.

# SANGATH

Sabarmati Samruddhi Seva Sangh gives top most priority in building capacity of the target communities. It seeks to build up the inner potentials and capacities of the individuals, families, affinity groups and communities within the operational villages and equip the vulnerable and marginalized groups to fight against the deprivation, marginalization and exploitation they experience in their day-to-day life. In this capacity building process, SSSS plays the role of an external facilitator and a constant companionship in the journey of the poor towards their empowerment and self-development. SSSS does not offer solutions to the different issues and problems of the poor it works with instead it motivates to enable the poor to build up a strong foundation and a platform to identify their own development need in finding solutions for their own problems and issues.

“SANGATH” project works closely with Core Committee in project implementation. Subsequently, the role of SSSS limits in advisory capacity to these Cooperatives. The operating partners too are required to gradually withdraw and offer handholding support as and when demanded. The four cooperatives that have been legally registered as a separate entity continues to have placed increased emphasis on the process based approach of empowerment of Cooperative. Its members are growing and learning to take leadership eventually and subsequently become a resource for socio -economic development.

SSSS believes that people under its care have had an opportunity to develop an identity for themselves through our constant support and interventions. Our initiatives have rejuvenated the skills of these communities to transform the projects into programs in their lives.

**We** could make these happen just because of your generosity and invaluable contribution towards the upholding growth of these communities.

**Your** genuine assistance revitalizes our spirit not only to work with them but also to be part of their empowerment and development.

## SSSS Organization Structure

**Our Funding Partners  
In Development for  
The Year 2016 - 2017.**

Every day is a new day that brings along experience for healthy living. The needs of those whom we serve are more than ever and so are the requirements of SSSS and of several others like us. SSSS believes that people under its care have had an opportunity to develop an identity for themselves through our constant support and interventions. Our initiatives have rejuvenated the skills of these communities to transform the projects into programs in their lives. However, we do not believe that we have reached that stage where we can rest.

A lot has been said & done at SSSS. We could make these happen and achieve just because of your generosity and invaluable contribution towards the upholding growth of these communities. We seek to work with the Government Organizations, the development wing of the Corporate Sector, like-minded Non-Governmental and Voluntary Organizations for remedying the dehumanizing conditions of the poor and the marginalized, gender bias, exploitations and oppressions by promoting human dignity and respect to the poor, the downtrodden and the vulnerable families of the communities in the society.

SSSS warmly seeks your collaboration to achieve positive changes in the lives of the poor. Your journeying with us will ensure goodness, renew our commitment, refocus on what needs to be done and with increased vigour go ahead and serve the people more for Life, Freedom, Dignity...
